

NON-CAUSTIC 333

CAUSTIC FREE TRAFFIC FILM REMOVER

- Caustic free - pH 10.5 when undiluted
- Mild on surfaces
- Low odour - user-friendly

A caustic-free traffic film remover with a pH value of 10.5 that is mild on surfaces, yet removes heavy soiling rapidly.

A concentrated blend of specialised surfactants with corrosion inhibitors, designed to remove traffic film, oil and grease from vehicles.

Ideal to use as a safer, alternative traffic film remover throughout the car valeting and automotive industries.

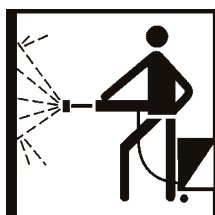

DIRECTIONS

Check surface compatibility prior to application.

PRESSURE WASHER - Adjust the detergent feed according to the level of soiling of the surface to be cleaned. Apply and allow 2-5 minutes contact time. Rinse off thoroughly with water.

LOW PRESSURE SPRAY - Apply diluted solution and allow 2-5 minutes contact time. Rinse off thoroughly with hot or cold water.

NON-CAUSTIC 333 : WATER	
Pressure Washer 1:50 - 1:100	Low pressure spray 1:10
